## 2018 Rule(s) Bulletin

Bulletin 2018-2

January 10, 2018

### Reference 2018 Modified Lite STARS Series Rules dated September 30, 2017

The following rule clarification pertains to the Modified Lite STARS Racing Series rules dated September 30, 2017 as it applies to Mod Lite Quebec.

### **32.3 ENGINE**

#### *Mod Lite Quebec Change to Read:*

32.3.3 Charging system **must be** operational OEM.

32.3.5 Alternator cover allowed. **Rule 32.3.3 applies.**

32.3.6 Factory balancer and/or balancer shaft **must be installed.**

**32.6.5 Factory supplied air boxe required. Aftermarket air filters such as K&N/Kinser may be used. OEM velocity stacks required.**

**32.7.1 OEM stock ignition system only. Power Commanders, TFI and Bazzaz may not be used. Oxygen sensors permitted in OEM configuration. Components added to allow traction control will not be allowed.**

**32.7.2 Operational alternator mandatory.**

### **32.8 FUEL**

Note: Exception to this rule may apply. Pump gas only will apply for Texas, Western (AZ) and **Mod Lite Quebec** series.
