## 2014 Rule(s) Bulletin

July 5, 2014

### Bulletin 2014-3 STOCK ENGINE MOTOR PROGRAM CLARIFICATION

**The following rule amendments are in regard to the following 2014 Modified Lite STARS International Championship Tour rules dated November 30, 2013.**

#### 8.2 STOCK ENGINE MOTOR PROGRAM SPECIFICATIONS

8.2.16 The intent of the pure stock engine is to use engines directly from a factory supplied street legal motorcycle, without any modifications whatsoever. If there is something that has not been addressed in the above specification, do not assume modifications can be made. You must request clarification from your governing body with any item that has not been directly addressed.

### STOCK ENGINE MOTOR PROGRAM CLARIFICATION

1. In accordance with manufacture recommendation only pump gas will be permitted for the STOCK ENGINE PROGRAM. A stock ECU/ECM set at the OEM settings are permitted, flashing of ECU's to support E-85 fuel will not be permitted.
2. E-85 fuel is not permitted for the STOCK MOTOR PROGRAM. If a driver/car owner elects to flash their ECU's and use E-85 can do so but will be required to move to the SPEC MOTOR PROGRAM and weigh 1300 lbs.
