SOMERSET, PA (January 8, 2016) – Officials of the BILSTEIN Modified Lite STARS Championship Tour are pleased to announce the resigning with Ignite Racing Fuel. Ignite is a family of ethanol blended racing fuels from NBD LLC. Ignite is 100% American and green, allowing your racer to run smoother, with additional power, increased torque, acceleration, and lower cost.

Ignite Racing Fuel will be part of the 2016 Bilstein Mod Lite STARS Nationals that will be held in Indiana. Details are be worked out and will be released soon. In 2015 first annual IGNITE RACING FUEL 500 paying \$500 to the winner at Montpelier Speedway saw two of the top manufactures sitting on the pole with the Eliminator Race Cars/Extreme Motorsports #59 Tracey Fritter on the pole with Evolution Chassie #99T Tyler Riggs earning a spot on the outside. With laps counting down and working heavy lap traffic Riggs earned the feature win.

Ignite is specifically formulated ethanol racing fuels for various engine, fuel/air delivery systems and compression ratio combination.
