The BILSTEIN Modified Lite STARS International Championship Tour is a non-profit organization formed to fill a void and restore much-needed stability to the brand of mod-lite racing. To reverse the downward trend that it was experiencing the Modified Lite STARS established stability and direction. Serving as a national sanctioning body the Modified Lite STARS International Championship Tour represents an aggressively growing segment of motor sports' racing and is recognized as the leader in modified lite racing. In its eighth year of operation the STARS program has gained widespread acceptance with its standardized rules, sponsorship program, with the STARS model becoming the basic guide for pockets of localized modified lite racers.

The 2013 season was very successful that saw more than 230 different drivers competing for regional and national points. Our best estimates are that because of sponsorship support we were able to pay out more than \$200,000 in cash and awards.

The Modified Lite STARS International Championship Tour is proudly supported by its major sponsors: BILSTEIN Shock Absorbers, North East Modified Lites, Knepper ATV Repair, TRU Wheels, New Augusta Auto Services, and Hoosier Racing Tire.
